LIGHTING UP THE WORLD
WITH PORCELAIN

Nothing has a greater impact on an interior than the way it is lit. Lladró combines lighting fixtures and the wealth of a unique material like porcelain to create a delicate balance between creative art and superb handcrafted technique.

The design of this lamp, belonging to the *Boldblack* collection, features an imposing, powerful gorilla. The pieces in this series combine black and gold, two emphatic and elegant colors, to create infinite decorative possibilities. When applied to matte porcelain this two-tone design underscores the sculptural quality of the forms.

The fabric shade is also in black and gold.

The design for this wall lamp features a relief inspired by wildlife, a feline and a variety of tropical plants, minutely etched by hand.

Made in translucent matte porcelain, it offers two different views. When the wall lamp is switched off, one can appreciate the detail and the mastery of the bas-relief work; and when it is lit, this same etching is magically brought to life.

The Parrot Party collection is now introducing black versions to add to its already existing red and blue versions. A wall and a tabletop lamp with a black base join this collection which combines the refined treatment of the birds with the simplicity of the branches on which they are perched. Light-hearted, contemporary lamps that evince the creative wealth that arises from mixing tradition and design.

Like the rest of the creations in this collection, these lamps are made in porcelain, except for the glass balls.

PENDANT LAMPS

Kokeshi LAMPS

These cordless lamps are a reinterpretation of the traditional simple Japanese Kokeshi dolls with rounded heads. Originally from the Tohoku region, in the north of the land of the rising sun, here these dolls are made in porcelain instead of wood and have been transformed into functional decorative lighting.

They are made in glazed porcelain decorated in a combination of pastel tones, colored vanishes and touches of golden luster. The shade is translucent matte white porcelain and has a tactile dimmer switch in metal etched with the brand's flower logo.

Here tradition is updated in the unique language of porcelain. Culture, design and functionality come together to produce versatile lamps with warm lighting.

The *Firefly* collection by Lladró takes on a new look thanks to a collaboration with the renowned designer Olga Hanono. The Mexican artist lends her signature stamp to a series already well known and loved by the public. Her taste in transforming interiors and objects and the use of geometric patterns has given rise to *Firefly* lamps that combine originality and aesthetic elegance. The use of black and metallic colors contrasted with pure white turns them into works of art, over and beyond their use function.

Firefly by Olga Hanono includes this cordless lamp with a porcelain shade and dimmer, as well as wall, ceiling and floor lamp versions.
